

Did you know that you could have
received your medicines today without
having to visit a GP practice first?

Think Pharmacy First

@NHSngccg

Pharmacists are experts in the use of medicine and they can diagnose and treat your minor illnesses.

Visit your pharmacy if you're suffering from:

- Aches and pains
- Allergies
- Colds and flu
- Eye care
- Ear care
- Head lice
- Stomach aches
- Any skin or mouth problem, eg chicken pox, cold sores, warts and verrucae
